hauck TOYS FOR KIDS Puppenzubehör

Das Wohlergehen von Kindern liegt uns ganz besonders am Herzen. Wir wollen Produkte entwickeln, die Kinder glücklich machen und sie in der Entwicklung fördern.

Wir als Hersteller von Kinderspielwaren und Zubehör sind uns unserer Verantwortung bewusst, daher stehen Produktqualität und -sicherheit an erster Stelle.

Qualität und Sicherheit

Die Gesundheit des Kindes, die Zweckmäßigkeit und eine lange Nutzungsdauer der Produkte sind für uns sehr wichtig. Unsere Produkte werden nur aus geprüften und giffreien Materialien hergestellt. Wir bedienen internationale Märkte und vertreiben unsere Produkte weltweit. Unsere Produkte erfüllen die internationalen Standards und Normen, werden streng geprüft und sind durch den TÜV Thüringen zertifiziert.

Den letzten Qualitätsstempel des fertigen Produktes geben unsere eigenen Kinder und die unserer Mitarbeiter. Sie sind die härtesten Kritiker. Erst wenn sie begeistert sind, sind wir zufrieden und geben die Produkte zum Verkauf frei.

Soziale Verantwortung

Neben den Produkten werden auch unsere Produktionsstätten in regelmäßigen Abständen mehrmals jährlich von unseren internen Qualitätsmanagern und unabhängigen Organisationen kontrolliert (TÜV/SGS).

Designed & engineered in Germany

Von der ersten Idee bis zum Prototypenbau findet die Produktentwicklung in Deutschland statt. An den Standorten in Deutschland und der Schweiz arbeiten viele kreative Köpfe an immer neuen Spielideen, um Kinder zu begeistern. Das Ergebnis sind individuelle, kindgerechte Produkte, die die geistige, motorische und soziale Entwicklung positiv beeinflussen.

Die Farbwiedergabe der Artikel kann vom Original abweichen. Geringfügige Modell- bzw. Designänderungen behalten wir uns vor. The colour reproduction of the products may differ from the original. We reserve the right to minor changes in model and/or design.

hauck TOYS FOR KIDS doll accessories

The well-being of children is especially dear to our heart. We want to develop products that make children happy and support their development.

As a manufacturer of children's toys and accessories, we are aware of our responsibilities, so product quality and safety always come first.

Quality and safety

Children's health and the products' fitness for purpose and long useful life are very important for us and our products are made exclusively from tested and non-toxic materials. We serve international markets and sell our products all over the world, so they meet international standards, are subject to strict tests and are certified by TÜV Thüringen.

Our own children and those of our staff give the finished products the final quality seal. They are our toughest critics and only when they are impressed are we satisfied enough to approve the products for sale.

Social responsibility

As well as the products, our production facilities are inspected several times a year at regular intervals by our internal quality managers and independent organisations (TÜV/SGS).

Designed and engineered in Germany

From initial concept through to prototype construction, all product development is managed in our modern German and Swiss design facilities. Our dedicated creative teams are passionate about developing toys that not only provide endless playtime fun but that also aid development of children's mental, social and motor skills.
