

WHAT WE STAND FOR

CARE

Caring is the essence of every loving relationship, be it within a family or a friendship. For us, 'care' means honesty, openness and responsibility. We've spent over 100 years with the valuable task of caring for babies' well-being and nurturing their development with trusted and safe products. To care is our promise, one which we'll always continue.

Embracing

We're optimistic, accessible and warm, celebrating the joy, love and play that comes with babies.

Honest

We attach great importance to sincerity and integrity. We admit mistakes, talk about them openly and share what we learn from them.

Open

We're here for every type of family and represent an open and tolerant world view. Inclusion and diversity are a matter of principle for us.

Responsible

We focus on safety, reliability and accountability, and we're constantly thinking about how we can make the world a better place.

**Made to care,
designed for love**

100 YEARS OF HISTORY

We have a reason to celebrate, or rather 100 reasons. Hauck is 100 years old this year and we are returning to our origins and looking back on a success story full of leadership and passion. Let's have a look at our story and celebrate it together.

THIS IS OUR STORY THAT WE WOULD LIKE TO CELEBRATE WITH YOU

Founder of the company
Felix Hauck

For over 100 years, we've been inventing and developing the very best products for our children and other families' children. Everything that matters to families whatever their shape or set up matters to us: safety, support and a feeling of belonging.

Employees 1940

THE FOUNDING STORY

The founding story begins in the year 1923. The great-grandfather Felix Hauck founded the company originally as a manufacturer and trader of baskets. He made use of the local speciality of weaving wicker baskets because reeds were plentiful due to the considerable number of willows in the region along the river Main. Moreover, hauck's region of origin is right next to the city of Coburg.

Felix Hauck recognised the potential of the versatile baskets early on and turned necessity into a business model from which everyone should benefit. Through his commercial skills, Felix Hauck succeeded in turning the one-man business founded in 1923 into a company with ten employees. It was to be the foundation for what is now, almost 100 years later, the hauck brand, known worldwide for its innovative baby and children's products.

HAUCK'S NEXT CHAPTER

With a modern brand strategy and a changed logo, hauck is repositioning itself on the baby and toy market. The rebranding positions the company as an appealing brand for first-time parents: „care“ is not just the brand essence, but a promise. This is also shown in the brand philosophy:

WE HELP FIRST-TIME PARENTS CARE FOR THEIR BABIES AND GIVE THEM THE VERY BEST START IN LIFE.

**Made to care,
designed for love**

NEW LOGO

The hauck company has combined its two brands „hauck fun for kids“ and „hauck toys for kids“ into one brand and one logo.

The merger of the two brands follows the integration of the two formerly separate companies into one during 2020. The new logo reflects the brand essence of „care“: a small h with two circles represents a child leaning on the shoulder of a parent. The new logo symbolises the closeness between parent and child, but also the shoulder to lean on that hauck wants to be for parents. Our logo is already being used in our communication and can be seen on some of our new products. Step by step, we will change our entire communication and product world to our new logo.

You can find the different versions of our logo here: [Link Logo](#)

NEW BRAND CLAIM

To give our brand essence „care“ more space in our communication, we also established a new brand claim: **Made to care, designed for love.**

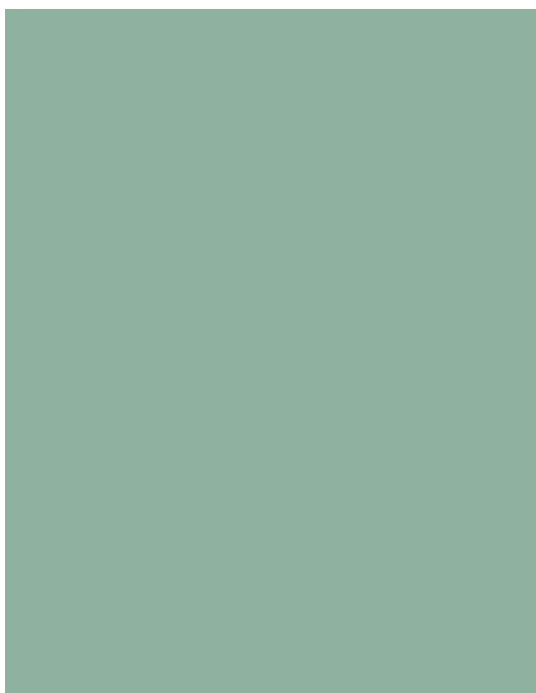

This brand claim picks up on our brand philosophy and translates it in an emotional and appealing way. Our imagery also picks up more and more on this emotional intimacy between parents and child.

You can find out more about our new brand philosophy in the brand film: [Link brand film](#)

NEW PRODUCTS

We value good quality at a fair and reasonable price. As a result, we are increasingly focusing on higher quality products.

Cotton is now used more often for textiles, as the fabric has breathable and moisture-regulating properties. We are also aiming for the OEKO-TEX® certification for selected fabrics and products. For wood products, we use sustainable and FSC® certified wood and offer a wider variety of wood products, for example our new wooden toys. For accessories, we use recycled plastic, certified by GRS, for selected products. Our promise is rounded off by more robust and durable products in a modern and high-quality design.

PUSHCHAIRS

THE STYLISH PUSHCHAIR WITH HEIGHT-ADJUSTABLE SEAT

WALK N CARE

Even in established product categories, we are always working on new, high-quality products that further simplify the everyday lives of families and offer added comfort and safety.

HIGH-QUALITY PUSHCHAIR SET WITH MANY FUNCTIONS

High-quality, comfortable and safe — you can first use the Walk N Care Air with the carrycot and later on with the comfort seat, making the set suitable from birth up to approximately 4 years and supports up to 25 kg (22 kg child + 3 kg basket). The suspension, air wheels and the light but robust aluminium frame make driving child's play on any terrain. The height-adjustable telescopic handlebar offers all parents back-friendly pushing and more legroom. The premium design is made of durable, easy-care fabrics with UV protection 50+, handlebar and bumper bar in leather look as well as a mattress with washable cotton cover.

HIGH-END EXTRAX FOR A HARMONIOUS FAMILY LIFE

Thanks to the two XXL panorama windows, your baby has fresh air and a great view when lying on the back or on the tummy. The memory function allows you to comfortably remove the carrycot from the frame with one hand, not waking your baby up and always having a free hand. The seat unit can be reversed with a click and adjusted in height when at a café or restaurant. For sleeping, you can fully recline the backrest with one hand and adjust the footrest upwards. The boot covers keeps your child warm on cold days.

FOLDABLE, SPACE-SAVING AND COMPATIBLE

For space-saving transport, you can fold the pushchair with one hand and the carrycot to flat. You can also combine the frame with an infant car seat by hauck or other manufacturers by means of adapters, as well as with a hauck raincover or seat liner.

FSC®-CERTIFIED WOODEN HIGHCHAIRS

The mark of
responsible forestry

THE WOODEN HIGHCHAIR THAT GROWS ALONG FOR LIFE

ALPHA+ Family

[Link Alpha+ Video](#)

Our ALPHA+ FAMILY stands for a wide variety of products based on a modular system. All modules are perfectly matched to each other and can be purchased individually. Thanks to the various combination options, we are the first supplier to combine the functions of lying, sitting, eating and playing in one product concept.

LIFE-LONG COMPANION MADE OF SUSTAINABLE BEECHWOOD

The Alpha+ is made of European beechwood deriving from FSC® certified forests, which value sustainable and ecologic forestry to protect plants and animals. Thanks to the adjustable seat and foot plate, the Alpha+ adapts to your growing child and allows a comfortable seating position at any age. The highchair fits under almost any table even with the safety bar and is a reliable companion for life as it takes a maximum load of up to 90 kg.

ELEVATED STABILITY FOR SAFE MEALTIMES

Thanks to its stable construction and the integrated floor gliders, the Alpha+ is tilt-proof. When your child pushes away from the table, the highchair simply moves slightly backwards. Both the safety strap and 5-point harness are included and help keep your child safe. Also, they are compatible with other hauck accessories. The safety bar is essential for smaller children, while it can be removed later, allowing your child to sit comfortably at the dining table or the desk.

COMFORT FROM BIRTH THANKS TO FLEXIBLE ACCESSORIES

By combining the Alpha+ with one of the Alpha Bouncer baby seats, which can also be used as bouncers, your baby is at eye level with the whole family. The Alpha+ can also be combined with various trays, seat inserts and seat cushions. All of these accessories are also compatible with our Beta+ highchair.

ONE CHAIR

MANY POSSIBILITIES

LYING

Parents always want to keep a close eye on their newborn during everyday life. With the bouncer as newborn seat, the Alpha+ wooden highchair becomes a cozy lying surface for newborns that can be used anywhere in the house.

SITTING

As soon as babies can sit, they always want to be part of the action. The Highchair Baby Pad makes the Alpha+ wooden highchair a safe as well as comfortable place for babies to sit.

EATING

Babies grow quickly and want to be at eye level even as toddlers. Combined with the Highchair Pad, our wooden highchair becomes a comfortable seating option for toddlers. By using one of our trays - available in plastic or wood, to click or screw on - children have their very own table to eat on.

PLAYING

Patiently waiting at the dinner table until the family has eaten? That's not exactly children's forte. With the Alpha Play Sets, the wooden highchair becomes a playing paradise with different themes and designs - allowing even the most impatient child to happily sit at the table.

WOODEN HIGHCHAIR ACCESSORIES

GREAT ADDITION TO THE HAUCK HIGHCHAIR

PLAY TRAY

The Play Tray is the perfect addition to the hauck wooden highchairs - and a real innovation. The Play Tray can easily be clicked on the highchair and offers space for up to three great toys. The toys are easily attached to the Play Tray.

IDEAL FOR PLAYING AND LEARNING

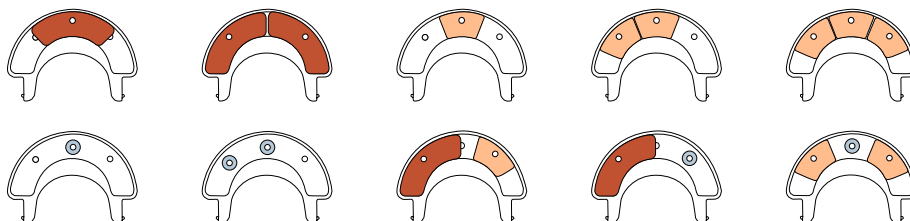

Thanks to the Play Tray Toys the child's fine motor skills are trained in a playful way while the child sits safely in the highchair. The toys can also be used independently, without the Play Tray or highchair.

SUSTAINABLE AND GRS-CERTIFIED MATERIAL

All our toys are made of FSC®-certified wood. We attach great importance to sustainable and ecological utilisation of forest land that protects plants and animals. The Play Tray is easy to clean, durable - and sustainably produced. Like this we contribute to a healthy start to life.

BABY CARE

WE CARE

NEW PRODUCT CATEGORIES

New product categories expand the idea of care: for over 100 years, hauck has been concerned with improving the well-being of babies and supporting their development with proven and safe products. A new product category that is being added to the portfolio also stands for this. It includes care products such as changing mats, baby bathtubs and baby blankets.
